AGENDA MATTERS

1. Welcome & Acknowledgement of Country

The SP opened the meeting and acknowledged that the Student Council meeting was taking place on Kaurna land and thanked the elders past and present for the use of this land.

2. Apologies

The SP notified the Student Council of the apologies received as listed above.

3. Matters for Discussion

Nursing Student Complaint – Gabriel Evangelista

A lecture that was scheduled as ‘live’ at the start of the semester is now only available online. The student went through the policies and procedures with Neil Garry. He has spoken to Steve Parker who advised to contact the Topic Co-ordinator. The student would like lectures to resume, as it is a core subject. EO will get back to student within the next couple of days. SP and EO will work on getting problem resolved.

4. Office Bearer Reports

   a. President Report

   Education Conference
   SP attended NUS Education Conference in July. Attended a workshop about engaging International students. SP will talk to IO about some of the suggestions given.

   First Year Teaching & Transition Advisory Group
   Students with an ATAR of 70 or below will be required to undertake a literacy subject. SP doesn’t believe this is the best gage; students with ATAR 90 may still not be literate.

   O’Week Advisory
   AO attended as SP proxy for the working group. SP attended a subsequent meeting explaining the role of FUSA.
University Council
SP attended University Council on 9th August as an observer. Council suggested that FUSA add something about the budget in the constitution. SP is unsure of exacts of request and does not believe it is common for budget to go into a constitution. Will get clarity from Uni Council.

Council also questioned, 11.2 of the constitution:

‘At the request of three or more voting members of the Student Council, the General Secretary must call a meeting of the Student Council at a place and time convenient to the voting members of Student Council’

It was suggested that three is too small and may cause instability.

At this stage no indication that an amendment is necessary.

Meeting with Vice-President (Strategy and Planning)
SP met with Gill Troup. She is very supportive of the student voice. She has offered to assist and is a good advocate for FUSA.

Meeting with Student Equity Officer
SP is to meet with Chris O’Grady to discuss the Welfare Officer position and how we can interact effectively with the University and Health & Counselling.

Flinders has rolled out a new mobile device technology in relation to FLO. 95% of students have mobile devices which they have internet access, ETAG believes a better integration is required.

Online submission of electronically generated assignments is still in the trial phase. Online submission will be mandatory and due to be implemented in 2013.
